

DJ1- \$169 USD

Ready for the big time? Then the DJ1 with S-Logic Plus is the headphone for you. Designed exclusively for those looking to break into the professional DJ world, the DJ1 is the perfect tool to help you stay at the top of your game. Featuring our most durable and efficient 50mm Mylar driver, the DJ1 will crank out lots of volume and bass to cut through even the loudest environments. And with S-Logic Plus™ technology, you can wear them for hours without the worry of damaging your hearing. Updated for the 2008, the newer DJ1 also has thicker earpads and headband pad, improved ULE standard Mu Metal shielding and a slick black aluminum finish on the earcup.

S-Logic™

Ultrasonic headphones with patented S-Logic™ are the first headphones to utilize your entire ear in the listening experience. Through the use of decentralized driver positioning, S-Logic™ headphones aim the sound at the outer ear or pinna. Because the sound does not go directly down your ear canal as with conventional headphones, but instead filters off the outer ear as you listen and perception of distance, depth and instrument placement are greatly enhanced. You can hear the mix exactly as the engineer heard it in the studio.

Safer Hearing

An added benefit of S-Logic technology is an up to 40% (3-4dB) drop in SPL (sound pressure levels) for the same perceived volume. This means the Ultrasones put less pressure on your eardrum than any other headphones. Because of this, the risk of hearing damaged is greatly reduced and you can listen for longer without fatigue.

Tech Specs

S-Logic™ Natural Surround Sound Plus

Dynamic principle

50mm Mylar Driver

Frequency range 10 Hz-22 kHz

Impedance 32 Ohm

Max sound pressure level 104 dB

MU Metal bufferboard, ULE Standard 98%

Recommended minimum burn in time: 8 hours

Weight 295 g (without cord)

Long-term availability of spare parts
