

HFI 2200 - \$299 USD

Listening to the HFI-2200 ULE, will make you think you are sitting in the sweet spot of your own personal concert hall. These open, dynamic headphones use a 40mm gold driver that provides a rich, warm sound with extremely lifelike ambience. And with a detachable cable and soft velour earpads these headphones will envelop you in majesty.

Best For: Home use, Acoustic, Jazz and Classical music.

S-Logic™

Ultrasone headphones with patented S-Logic™ are the first headphones to utilize your entire ear in the listening experience. Through the use of decentralized driver positioning, S-Logic™ headphones aim the sound at the outer ear or pinna. Because the sound does not go directly down your ear canal as with conventional headphones, but instead filters off the outer ear as you listen and perception of distance, depth and instrument placement are greatly enhanced. You can hear the mix exactly as the engineer heard it in the studio.

Safer Hearing

An added benefit of S-Logic technology is an up to 40% (3-4dB) drop in SPL (sound pressure levels) for the same perceived volume. This means the Ultrasone's put less pressure on your eardrum than any other headphones. Because of this, the risk of hearing damaged is greatly reduced and you can listen for longer without fatigue.
