

HFI 780 - \$249 USD

The new HFI-780 (formerly the HFI-700) was created to be one of the all-around best headphones ever made. This silver beauty will be at home with just about any task you need headphones for. Their great isolation and clear sound make them a great headphone for tracking in the studio. And with a frequency response tuned to enhance CD and DVD playback, the HFI-780 also makes a great addiction to your home audio/theatre setup. They're even great for gaming as our exclusive S-Logic Plus™ provides great spatial response for in game audio. The HFI-780 also comes with thicker earpads and headband pad and a new velvet carrying bag.

Best For: Keyboardists, Guitarists, Vocalists

S-Logic™

Ultrasone headphones with patented S-Logic™ are the first headphones to utilize your entire ear in the listening experience. Through the use of decentralized driver positioning, S-Logic™ headphones aim the sound at the outer ear or pinna. Because the sound does not go directly down your ear canal as with conventional headphones, but instead filters off the outer ear as you listen and perception of distance, depth and instrument placement are greatly enhanced. You can hear the mix exactly as the engineer heard it in the studio.

Safer Hearing

An added benefit of S-Logic technology is an up to 40% (3-4dB) drop in SPL (sound pressure levels) for the same perceived volume. This means the Ultrasones put less pressure on your eardrum than any other headphones. Because of this, the risk of hearing damaged is greatly reduced and you can listen for longer without fatigue.

Tech Specs

S-Logic™ Natural Surround Sound Plus

Dynamic principle

Driver 40 mm gold-plated

Frequency range 10 Hz-26 kHz

Impedance 35 Ohm

Max sound pressure level 96 dB

Mu Metal Bufferboard, ULE standard 98%

Recommended minimum burn-in time: 8 Hours

Weight 285 g (with cord)

Long-term availability of spare parts
