

PRO 550- \$239 USD

The PRO 550 (formerly the PROline 550) builds on the immensely popular HFI-580 (formerly the HFI-550) to create a professional headphone that is both durable and versatile. Featuring the same 50mm Mylar driver able to crank out lots of volume and punch, the PRO 550 also includes detachable cables and earpads. Updated for 2008, the PRO 550 now features thicker earpads and headband pad, brushed aluminum nameplate on the earcups and a nylon hardcase to protect your headphones on the go.

Best For: Drummers, Bassists, DJs

S-Logic™

Ultrasonics headphones with patented S-Logic™ are the first headphones to utilize your entire ear in the listening experience. Through the use of decentralized driver positioning, S-Logic™ headphones aim the sound at the outer ear or pinna. Because the sound does not go directly down your ear canal as with conventional headphones, but instead filters off the outer ear as you listen and perception of distance, depth and instrument placement are greatly enhanced. You can hear the mix exactly as the engineer heard it in the studio.

Safer Hearing

An added benefit of S-Logic technology is an up to 40% (3-4dB) drop in SPL (sound pressure levels) for the same perceived volume. This means the Ultrasonics put less pressure on your eardrum than any other headphones. Because of this, the risk of hearing damage is greatly reduced and you can listen for longer without fatigue.

Tech Specs

S-Logic™ Natural Surround Sound

Dynamic principle

50mm Mylar Driver

Frequency range 10 Hz-22 kHz

Impedance 64 Ohm

Max sound pressure level 102 dB

MU Metal bufferboard, ULE Standard 98%

Recommended minimum burn-in time: 8 hours

Weight 295 g (without cord)

Long-term availability of spare parts

PRO Box contains

Professional headphones

**2 detachable cables: one straight (length 3 m),
one coiled (length > 3 m) with gold-plated jacks 6.3 mm
and gold-plated adapter 6.3/3.5 mm**

Spare pair of speed-switch ear pads

Demo CD
